Reduce the cost of your furniture with Section 179!

What if you could significantly cut the cost of equipping your business? Taking advantage of the new tax law's enhanced IRS Section 179 deduction can give you an effective discount of up to 21% on all the furniture and other office technology you acquire this year!

Section 179 allows you to deduct up to \$2,500,000 in both new and used furniture and other office technology, including off-the-shelf software. That means you can put it all to work for your business right away and get your tax benefit the next time you file.

How could Section 179 impact your bottom line?

Here are some examples using the new tax law's Section 179 rules and assuming a typical tax rate of 21%:

Equipment Invoice Cost	Section 179 Deduction	Bonus Depreciation Deduction (100% after July 4, 2025)	Normal 1 st Year Depreciation	Total 1 st Year Deduction	Tax Savings	Effective Equipment Cost
